

Solace Center's Mission

The Mission of the Solace Center is to provide child-focused services to children and their families as they recover from painful experiences and strives, through education, to prevent future generations from repeating the cycles of abuse, neglect, and violence so they can experience healthy and productive relationships.

Testimonials

"Solace Center has taken away the anxiety and fear my children had. It's given me peace of mind."

-Solace Center Client

"Solace Center has been the best thing for me and my kids."

-Solace Center Client

"The things my children were afraid of have been taken out of the equation. Now they can relax and feel safe at the Solace Center."

What is the Solace Center?

Solace Center is a Supervised Visitation and Safe Exchange program that provides support, guidance and assistance to families who have experienced some type of trauma including abuse, neglect, violence, divorce, separation or custody issues that can cause stress and difficulties.

The program helps children establish a relationship with the non-residential party, siblings and other family members by promoting safe parental access to the children. The Solace Center provides a neutral, safe, and family-friendly environment with trained personnel who monitor time-limited visits and exchanges.

Hours of Operation

Wednesday and Friday:

5:00pm–8:00pm

Sunday:

All Day

All services are by appointment only.

Services Include

Supervised Visitation:

Supervised visits are usually for one hour weekly, however this length and frequency may be adjusted by the Family Court or by agreement of the parties.

Arrival and departure times are staggered by 15 minutes. Each party arrives separately from the other thus significantly reducing the opportunity for contact.

A trained Family Support Worker will oversee the arrival of the child(ren) and the visitation with the non-residential party. All visits include “eyes on” supervision for the duration of the visit.

Objective detailed observation reports are prepared each time a supervised visitation is completed at the Solace Center. These reports detail what took place during the visit or exchange, the types of activities, conversations and behaviors that occurred.

Visits: \$20.00 per hour

Supervised Exchange:

Safe exchange services are handled by trained Family Support Workers who oversee the transfer of the child(ren) from one party to the other for off-site unsupervised visitation. Exchanges occur during normal hours of operation.

Exchanges: \$5.00 per party, per exchange

Getting Started

Referrals can be made by Family Court, Children Services, Attorneys and by self-referral.

After a referral is received, each party is required to schedule an initial intake appointment by calling the Solace Center at 330-766-0689.

Separate intakes must be completed by each party before services can begin. At the time of the intake there is a one time fee of \$25.00 assessed to BOTH parties. Intakes are conducted at the YWCA in Warren.

During the intake interview, information is gathered from each party and parties are given specific details regarding the program including a handbook which outlines the guidelines of the program. It also discusses how to prepare your child and what to expect during the visitation. Once both parties have completed the face-to-face individual intake interview, the visits are typically scheduled within one week.
